GOLD BUG OPINION OF MCKINLEY.

LEY.

The fact that John Sherman is trying

to stem the tide of Eastern gold bug

opposition to McKinley's nomination is

being industriously used by the Demo-

cratic and Populist press of the West

and South as evidence that the cham-

pion of protection is an enemy of

silver, and, if elected, will stand

in the same relation to Wall Street

that Cleveland now does. That the

western partisan press gives much

more credence to the utterances of

Sherman than the staunch advocates of

gold monometallism do is the East is

proven by the continued assertions of

the latter journals that McKinley's sym-

pathies are with the cause of silver, and

that an opposition can be expected from

him in the event that a congress is

elected which will pass a free coinage

act. *Harper's Weekly* is a typical jour-

nal of the gold standard school and its

objection to McKinley is based upon his

record as a friend of the white metal.

In its issue of last week it says cir-

culation.

The Republican party the circum-

stances of the campaign for the nomi-

nation have forced Sherman Read into

the position of a sound-money candi-

date. For this we have to thank, not

Mr. Read, who has had nothing to say

on the subject, but the Republican state

conventions of Massachusetts and

Rhode Island. Mr. McKinley, however,

is still the leader of the gold stand-

ard party, although the movement in his

behalf has gone forward of late with

less rapidity and noise than marked it

a few weeks ago. He represents a tur-

fiff policy that is based on the gold

standard, and although some of the ex-

treme silver men, who really want to

join the silver Democrats in forming a

new party, based on the silver stand-

ard, will not stand in their way if he

is elected President. His record shows

that he possesses no principles or op-

inions that are antagonistic to the gold

majority in congress, in state, or where

to be immediately reckoned with.

Therefore, just as he always supported

the gold standard, so he will support

the party, including the Sherman act,

which he defended when he was chair-

man of the ways and means committee,

he will, as President, sign any free coin-

age bill that is passed by the legis-

lature of the United States. It is true

that nothing is less likely than the

passage of such a measure, but we are

now considering Mr. McKinley. The

President-elect is an aggressive

enemy of the free-coinage heresy, but

Mr. McKinley will be a friend to it if

his advocates stumble into power, and

will certainly do nothing to destroy

it by making that active war upon

it which is involved in the doing of

such things as Mr. Cleveland

has done for the maintenance of the

public credit. It is the duty of the

Republican party to support McKinley

as the best candidate for the presi-

dency, and to oppose the free coinage

heresy, but to do so in a way that

will not result in the financial ques-

tion fully justifies their belief that

he will, if elected to the

## THE MAJORITY WILL DECIDE.

What is the position of the Repub-

lican party on the silver question?

Fresno Republican please answer.

Fresno, May 14, 1896.

The position of the Republican party

on the silver question will be known

when the St. Louis convention adopts a

platform, and not before that time.

With the divergent views held on this

question, varying from unequalled

declarations for free coinage in the west

and south to the middle ground ad-

vocated in the Ohio platform, and de-

mands for the single gold standard in

the Atlantic states, it is hardly possi-

ble to say what decision the national

convention will reach, but in all prob-

ability the sentiment between the ex-

tremes will prevail. Both the silver

advocates and the gold

monometallists will make a strong

fight in the convention, but the

opinion is hardly justified that either

will be able to win. A demand for

aggressive action to secure international

agreement, and the increased use of

silver with certain restrictions until

agreement has been reached, may be

considered among the probabilities of

the financial plank in the St. Louis

platform. Now that the Democrats have

narrowed the question of its conten-

tion, it may be permitted to ask (the

Populist journal) what the position of

that party is on the vital question of

protection and free trade.

The Republican party the circum-

stances of the campaign for the nomi-

nation have forced Sherman Read into

the position of a sound-money candi-

date. For this we have to thank, not

Mr. Read, who has had nothing to say

on the subject, but the Republican state

conventions of Massachusetts and

Rhode Island. Mr. McKinley, however,

is still the leader of the gold stand-

ard party, although the movement in his

behalf has gone forward of late with

less rapidity and noise than marked it

a few weeks ago. He represents a tur-

fiff policy that is based on the gold

standard, and although some of the ex-

treme silver men, who really want to

join the silver Democrats in forming a

new party, based on the silver stand-

ard, will not stand in their way if he

is elected President. His record shows

that he possesses no principles or op-

inions that are antagonistic to the gold

majority in congress, in state, or where

to be immediately reckoned with.

Therefore, just as he always supported

the gold standard, so he will support

the party, including the Sherman act,

which he defended when he was chair-

man of the ways and means committee,

he will, as President, sign any free coin-

age bill that is passed by the legis-

lature of the United States. It is true

that nothing is less likely than the

passage of such a measure, but we are

now considering Mr. McKinley. The

President-elect is an aggressive

enemy of the free-coinage heresy, but

Mr. McKinley will be a friend to it if

his advocates stumble into power, and

will certainly do nothing to destroy

it by making that active war upon

it which is involved in the doing of

such things as Mr. Cleveland

has done for the maintenance of the

public credit. It is the duty of the

Republican party to support McKinley

as the best candidate for the presi-

dency, and to oppose the free coinage

heresy, but to do so in a way that

will not result in the financial ques-

tion fully justifies their belief that

he will, if elected to the

presidency, approve an act re-

habilitating silver that may be passed by

congress.

No man who might be elected to that

place could do more than that. If

Populist Stewart or Democrat Tillman

were the President they could do noth-

ing more than approve the work of con-

gress on behalf of silver. The Presi-

dent cannot pass a free-coinage law,

nor can he compel congress to do so.

We have had in the last administration

too much of executive interference

with the legislative department of the

government, and we want less of it

in the future.

The Republicans of the West like

those of the East believe that McKinley

will not renounce his record on the

financial question to oppose the will of

the people as expressed through their

representatives in congress; the differ-

ence is that the gold advocates of the

East find in this an objection to the

Ohio candidate, while the silver Repub-

licans of the West find in that belief

additional and important reason for

favoring him.

The platform of the Stanislaus county

Democratic committee "the laissez and

independent course of President Cleve-

land's policy," and indignantly spurns

the "wholly unfounded statement that

the financial condition of the country

is demoralized." This is not the first

time that the Democrats of Stanislaus

have earned fame by eloquently com-

mending Mr. Cleveland's administra-

tion, but it is the first time, we believe,

that he has taken point blank issue with

the repeated assertion of that state-

ment that the financial condition of the

country is demoralized. The Democracy

of Stanislaus is evidently a queer lot.

This fact that Colonel Huntington led

to go clear across the continent to find

a champion for his Santa Monica harbor

appropriation ought to be enough to

condemn the proposition. The opinion

of the government engineers and the

people most directly interested should

be accepted as conclusive evidence in a

matter of that kind, and evidently

would have been had the question been

submitted to a vote. Referring the

question to a commission was equivalent

to an admission of defeat in the senate

on the part of the Santa Monica schem-

ers.

Byrona contracting his cabinet of the

excellent material available in Califor-

nia, McKinley has ahead of him the

task of being elected. In his joyous

haste he seems to overlook this really

important factor.

The little matter of securing an elec-

tion is really the one to which McKin-

ley is giving his attention. It is his

supererogatory Democratic friends

who are doing the cabinet work.

The Stockton Mail suggests that the

members of cabinet officers ought to be

raised in view of the work they are

doing in making gold standard speeches,

in addition to their other duties. The

fact that John Sherman is trying

to stem the tide of Eastern gold bug

opposition to McKinley's nomination is

being industriously used by the Demo-

cratic and Populist press of the West

and South as evidence that the cham-

pion of protection is an enemy of

silver, and, if elected, will stand

in the same relation to Wall Street

that Cleveland now does. That the

western partisan press gives much

more credence to the utterances of

Sherman than the staunch advocates of

gold monometallism do is the East is

proven by the continued assertions of

the latter journals that McKinley's sym-

pathies are with the cause of silver, and

that an opposition can be expected from

him in the event that a congress is

elected which will pass a free coinage

act. *Harper's Weekly* is a typical jour-

nal of the gold standard school and its

objection to McKinley is based upon his

record as a friend of the white metal.

In its issue of last week it says cir-

culation.

The Republican party the circum-

stances of the campaign for the nomi-

nation have forced Sherman Read into

the position of a sound-money candi-

date. For this we have to thank, not

Mr. Read, who has had nothing to say

## United States Department of Agriculture—

Weather Bureau.

FRESNO, May 13.—Observations taken at 5 o'clock in the afternoon.

Barometer	30.17
Thermometer	81
Relative humidity	65
Wind	W. 10 miles per hour
Clouds	100
Minimum temperature for past 24 hours	65
Total rainfall past 24 hours	0.00
Total rainfall for season	8.38

## Weather Forecast.

SAN FRANCISCO, May 13.—Official forecast for thirty-day period, ending at 5 p. m. May 14: Partly cloudy, with light breeze; temperature, 65 to 75; light northerly winds.

## TEN DOLLARS REWARD.

The above reward will be paid for the arrest and conviction of parties caught stealing or defacing Republicans boxes which are placed in front of the residences of colony subscribers.

## LOCAL BRIVITIES.

Sweet potato plants at Blackie's. Remember Saturday evening, May 23d. "This" for me and my family.

Tandem bicycles to rent at K. G. Barton's.

Daily vegetables. Schuttler & Co., J street.

New 14 foot Headers \$185. W. J. O'Neill & Co.

New mowers for \$50 at Fresno Agricultural Works.

Many bicyclists are in training quickly for the ten-mile race on the 30th.

Nalier, the jeweler, has removed to 1921 Mariposa street, between J and K streets.

For rent—Duncan's large brick stable on Front street. Apply at Holland & Hollands.

Mrs. H. P. Johnson of North avenue, Lono Star, presented this office yesterday with a box of very fine strawberries.

For sale at Smith's Cash Store, K street, complete line of store fixtures or any portion of same by Holland & Hollands.

Friends of W. D. Grady deny that he has left Fresno permanently. They say that he went to the bay city merely on business.

Fresno will be represented by several delegates at the state convention of the Christian Endeavorers which meets in San Jose today.

For \$2.75 you can get both the WEEKLY REPUBLICAN and the Interior (Fresno's illustrated monthly) for one year. Send orders to Bureau office.

In Recorder Clark's court yesterday Percy McDowell, colored, was fined \$6.50 for drunkenness. He did not have the money and was floated.

Two Fresno students at the state university graduated this year. They are Albert Warner and Tracy Kelly. Joseph Bernhard graduates from Stanford.

At the Barton last night the Zanzies introduced a number of new and startling features that were well received. Tonight there will be an entire change of program.

The work of moving the Christian church from M and Fresno streets to L and Ventura, is now in progress. The building was recently bought by the German Lutherans.

Zanzie, the White Mahatma—This oracle of occult science will be consulted upon all affairs of life at Mrs. Burnett's, No. 1503 J street. Sittings, 50c, \$1.00. Hours from 2 to 6 p. m.

See Prof. Bradstreet next Monday evening in his wonderful special performance—colored electric light juggling—at the Barton. The only man in the world who performs the trick.

The Ladies Aid Society of the First Baptist church will assemble at the church today at 1 o'clock and then drive to Mrs. Ward's residence north of town, where their meeting will be held.

The sheriff's office and jail have new telephones which were badly needed. The old phones were so deaf that a speaking trumpet was necessary to make them hear, and an ear trumpet to make the man hear at the other end of the line.

## HIGH SCHOOL LECTURES.

Heidelberg Castle—Talk on the City of Rome.

On Tuesday afternoon Chester H. Howell, teacher of German in the high school, gave the ancient history class an hour's talk on the city of Rome. He illustrated his subject by many large photographs of objects and places of note, and enhanced the interest of the class by descriptions derived from personal observation and study in Rome.

Yesterday afternoon Geo. F. Church, of the Board of Education, lectured to the teachers and attendance of the high school on "A Lesson From Heidelberg Castle." He gave the history of the building of the castle, the men who built it, and the political, social and intellectual conditions of the Palatinate, the lecture occupied two hours in its delivery, and like others of his addresses was elaborate, scholarly and eloquent.

## A Vineyardist's Woes.

A vineyardist of Scandinavian colony called at this office yesterday and exhibited a quantity of bugs which he said were eating the leaves of his vines. The bugs are what are known as the "rose bugs." They are lively little creatures and the vineyardist says they are akin to the destructive work in the vineyards.

## 3 DAY

Malaria Cure has cured hundreds of others and will cure you. After the first dose all symptoms gradually disappear. Cures Malaria, Chills and Fevers. All druggists, or sent prepaid. Price, 75c.

FRESNO, Cal., April 22, 1896.

200 S. W., South Sacramento, Cal.

## SPRINKLERS AT WORK

The Scientific Road Nearing Completion.

## RUNNING LEVELS FOR DITCHES

County Surveyor Hoxie Suggests an Improved Sprinkling Cart—A Saving of Power.

The sprinklers are now at work on the scientific road east of the Lone Tree, and the dust is already under control. The water flows in the ditch constructed for that purpose along the side of the road. The pipe carrying the water across Fancher creek, under the bed of the stream, has been put in. The sprinkler now at work operates over about four miles of the road, and makes two round trips a day, thus traveling sixteen miles and sprinkling the road four times. The landway for the four miles now being sprinkled is thirty-two feet wide, and the machine lifts the water from the ditch and spreads it over the road very nicely.

From the Lone Tree to the city limits, a distance of three miles, the road is not quite completed; but a couple of sprinkling carts are at work on it, taking the dust from the road and spreading it by centrifugal pumps. This is only a temporary arrangement to keep the road from cutting up till the regular sprinkling can be put on.

The road from the county hospital to Fresno is fifty feet wide, not including a space left for a bicycle path on the south side and the street car track and two ditches on each side. The bicycle path will not be finished at present, because the main road will be so fine that an extra path would be unnecessary luxury. The avenue from side to side is not eighty feet, counting ditches, and path, car track and all, and when in the excellent condition proposed it will be one of the finest in the state.

The roadway being fifty feet in width, it is too broad to be watered from one ditch, and this was the reason for having one on each side. County Surveyor Hoxie was at work yesterday running the levels for the ditches. When they are completed the road will be done. Only a few days more will be necessary to accomplish that.

Mr. Hoxie has taken great pride in the scientific road, and has attached extra duty with no less than Superintendents Sayre and Wickschmidt, who have built the road. It was a rather bold undertaking with a low road fund, but with several substantial subsidies from private parties living along the road—some exceeding \$300—and careful calculations and expenditures, the road has been made; and it is there for all time, provided it is properly taken care of.

Mr. Hoxie is figuring on an improved sprinkling cart which will require less power. He considers that much energy is wasted in lifting water into the high tank perched upon a wagon which is much higher than is necessary. About one-half the power used to draw the cart and do the sprinkling is wasted in lifting water to the tank. The height, Mr. Hoxie is satisfied that a wagon with a tank very low, perhaps only two or three feet above the ground, will do the work as well and much more cheaply.

## READING AND WRITING.

The New Qualification Required of Voters.

The registration clerk this year have a new duty to perform. They must comply with the law which says that those who cannot write their names and cannot read the constitution in the English language cannot vote unless hindered by some physical disability, or unless they have already been on the Great Register.

Registration is frequently refused because of inability to read and write. Yesterday a man asked to be registered, and could not read, although he said he was studying hard and thought he could learn before election. He was refused, but was told to study hard and probably he could qualify himself before the Great Register is closed August 9th. He went out and bought a copy of the constitution and the United States and said he would soon be able to read it.

## THE SCHOOL ELECTION.

Only Those Who Are Registered May Vote.

At 5 o'clock last evening there had been only 307 names of voters entered on the Great Register of the county. This is less than one out of ten. Perhaps it is unnecessary again to call attention to the fact that the Great Register has been cancelled and no one can vote who does not re-register prior to August 9th next. No doubt many voters are resting easy, knowing that there is considerable time between the closing of the Great Register and the school election occurs June 8th, three weeks from tomorrow, and the outlook is that the vote will be light as only those who are registered will be allowed to vote, and very few have been registered thus far. School trustees will be voted for at that election. In some precincts it is a matter of considerable importance, and those who wish to cast their ballots must get their names on the Great Register at once.

## A BELLIGERENT HOBO.

A Rock Thrown at a Conductor Goes Through a Window.

Constable A. Adams of Mendota yesterday lodged a complaint in Justice Austin's court against Joseph Kelly on a charge of assault.

Kelly is alleged to have thrown a rock at a passenger train near Collins. The rock hit a window and a piece of glass struck a lady passenger in the face, cutting her badly.

Kelly had been trying to steal a ride on the train, and the conductor put him off. The hobo was standing on the car platform and Kelly had become angry, picked up a rock and threw it at him. The train was pulling out of the depot, and the rock went through the window instead of hitting the conductor.

## Henry Walton's Case.

Henry Walton, who was arrested yesterday for stealing two horses, was yesterday arraigned before Justice Austin on a charge of felony.

Walton's present charge was made a felony. In default of \$1000 bail he was sent to jail. The examination was set for Monday.

## An Early Morning Fire.

Shortly after 3 o'clock yesterday morning an alarm was sounded for a fire in a vacant house on the alley near Fresno street between F and G. The house and an adjoining barn were destroyed. The fire in aggregate amounted to about \$500. It is not known how the fire started.

## Foresters' Dance.

Yosemite Circle, Companion of Foresters, gave a dance at Elsinore hall last night. The affair was largely attended.

Music was furnished by the Yosemite Club and Charles Dyer acted as floor manager. An enjoyable time was spent.

## THE MYSTIC ZANZIES.

Another Evening of Mirth and Mystery at the Barton.

Professor and Madame Zanzie gave a second exhibition of their wonderful illusion and feats of mind reading at the Barton last night. In accordance with promise the program was considerably varied from that of the previous evening.

One of the novelties introduced was the blindfold reading by Madame Zanzie of intricate columns of figures, etc., chalked on a blackboard behind her. Thereafter Zanzie, not the slightest possibility of her seeing the characters and figures either by reflection or in any other way.

Then the Professor went out into the audience and selected in a number of minutes, all of which were correctly described by Madame Zanzie while still blindfolded.

The popular test of the previous evening was repeated by request. A number of well known citizens, both men and women, wrote questions on slips of paper, signed them with names or initials, and put the slips in their pockets. Later on Madame Zanzie gave the names or initials of all these persons and the questions they had asked. The replies were her own, and very prompt.

One question, "Where is Woodbury?" elicited the answer, "Buried." Another was, "Will there be a general election this fall?" The answer was "Yes."

Then the Professor executed a number of tricks, including Hermann's favorite hat-and-cannon ball illusion. Today at noon he will duplicate Tyndall's mind reading drive, accompanied by prominent citizens.

## BOARD OF HEALTH MEETING.

Diphtheria Has Disappeared—Mild Cases of Scarlet Fever.

The City Board of Health held a meeting in Dr. Rowell's office last night. Health Officer Hayden reported no cases of diphtheria now under treatment in the city. But one case has been reported for several weeks, and the disease seems to have disappeared.

About a dozen cases of scarlet fever have recently been reported, generally of a mild type, and the board discussed the question of how best to prevent its spreading. While the disease is so severe in this locality, the isolation of cases should always be practiced, and care taken that children do not return to school until fully recovered. This health record shows a generally healthy condition of the community.

## THE WEDNESDAY CLUB

ITS LAST MEETING OF THE SEASON.

A Pleasant Social Event at the Home of Mrs. J. B. Smith.

The Wednesday club finished its work of the season with an "optional" at the home of Mrs. J. B. Smith on North K street last evening. The club is one of the most prominent organizations of ladies in the city. It holds weekly meetings devoted to the study of literature. The season just closed has been a very successful one.

The club gives two social events every year, the "annual" in the middle of the season and the "optional." These have always been very enjoyable.

Last night's meeting was up to the high standard set by previous affairs. Mrs. Smith was an excellent hostess and was assisted by a number of other members of the club in providing entertainment. Each member had invited a friend to attend and there were consequently several guests. A creditable number of the club members were present, and the evening was a very pleasant one.

Progressive salmagundi was the principal entertainment. The games were played with great interest and were highly enjoyed. The ladies' dinner was won by Mrs. A. Gartenlaub and the gentlemen's by Louis Hirsch. Dr. G. H. Allen won the gentlemen's booby prize and Mrs. Phillips the ladies'.

At the conclusion of the games, elegant refreshments were served. An hour was pleasantly spent in sociability.

Those present last evening were: Dr. and Mrs. G. H. Allen, Mr. and Mrs. Louis Hirsch, Mr. and Mrs. E. G. Chaddock, Mr. and Mrs. T. J. Oskenden, Mr. and Mrs. J. D. Gray, Judge and Mrs. M. K. Harris, Mr. and Mrs. William Liddell, Mr. and Mrs. W. W. H. Hirsch, Mr. and Mrs. J. A. Seymour, Mr. and Mrs. J. F. Church, Mr. and Mrs. A. Gartenlaub, Mr. and Mrs. E. L. Higgins, Mr. and Mrs. Charles Miller, Mr. and Mrs. George Kalle, Mr. and Mrs. Charles L. Walter, Mrs. Phillips, Mrs. Tyree, Mrs. Tyree of Valjejo, Mrs. J. G. Holmes, Mrs. Lowland, Mrs. J. W. Short, Mrs. Sutherland of Chicago, Mrs. G. A. Norman, Mrs. Marion Wheeler, Susan Roberts, Mabel DeWitt, Meador, W. W. Phillips, C. O. Merriam and Louis H. Smith.

## Looking at Land.

Rev. Father Jerome, Senator Fred and F. S. Potts, who are looking for land for a large colony of Germans, spent yesterday driving through the large section north and west of Fresno. They were much pleased with the land, but have not yet come to a conclusion. They want 30,000 acres.

## Gladness Comes

With a better understanding of the transient nature of the many physical ills, which vanish before proper efforts—gentle exercise, rest, and a healthy diet—there is comfort in the knowledge that so many forms of sickness are not due to any actual disease, but simply to a constipated condition of the system, which the pleasant removal of Symp of Figs promptly removes. That is why it is the only remedy with millions of families, and why it should have the best, and with the well-informed everywhere, Symp of Figs stands highest and is most largely used and gives most general satisfaction.

If in the enjoyment of good health, and the system is regular, laxatives or other remedies are then not needed. If afflicted with any actual disease, one may be recommended to the most skillful physicians, but if in need of a laxative, the well-informed everywhere, Symp of Figs stands highest and is most largely used and gives most general satisfaction.
